

## Soil Infiltration Rate

### EXAMPLE

Depth of Hole (inches)	24 inches	
Start Time	8:15 am	
End Time	8:15 pm	
# Hours to Drain	12 hours	
<b>Infiltration Rate (inches/hour)</b>	24 inches / 12 hours = 2 inches / hour	

\*Note: If your infiltration rate is less than 0.5 inches/hour, you will need to increase the surface area of the rain garden by 50%.
