Dear Cecilia,

I attempted to upload our second BBA nomination through your online portal, but it appeared to still be down so here is our information.

Here is the information:

First Name: Jennifer (South River Federation)

Last Name: Carr

Email: [jennifer@southriverfederation.net](mailto:jennifer@southriverfederation.net)

Phone: 410-224-3802

Project Name: Poplar Point Stream Restoration

Type of Practice: Stream Restoration

Practice Design Team: Brightwater, Inc

Drainage Area (acres): 32

% Impervious of Drainage Area: 40%

Runoff Volume Treated (cubic feet): 6,026

Approximate cost: \$325,000

Project Location: 2707 Church Creek Lane, Edgewater, MD 21037, 38.957491, -76.545862

Project Description:

Where a 20 foot deep eroding gully laid until 2014, a beautiful restored coastal plain stream with a highly connected floodplain now exists. The Poplar Point Stream Restoration Project provides a unique blend of aquatic and upland wildlife habitat, while providing effective stormwater storage and processing.

Project Category: Best Stream Restoration

Narrative and Supporting Photos are attached. Please let me know if you would like me to try to submit online again.

Thank you so much for this opportunity,  
Jennifer Carr  
Project Coordinator  
South River Federation
